PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Keep away from feed or foodstuffs. Wear rubber gloves when handling this product.

FIRST AID

HAVE THIS LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

| | |
|-------------------------------|---|
| IF SWALLOWED | <ul style="list-style-type: none"> Call a Poison Control Center, doctor or 1-800-858-7378 immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. |
| IF ON SKIN OR CLOTHING | <ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a Poison Control Center, doctor or 1-800-858-7378 immediately for treatment advice. |
| IF IN EYES | <ul style="list-style-type: none"> If in eyes hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present after 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice. |

NOTE TO PHYSICIAN: If ingested, administer Vitamin K₁ intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS - This product is toxic to fish and wildlife. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE FOOD, FEED, OR WATER BY STORAGE OR DISPOSAL

STORAGE: Store in original container, in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of below ground, (buried), on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty container and dispose of in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned stay out of smoke.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOTE: THIS LABEL MUST BE IN THE POSSESSION OF THE USER AT THE TIME OF PESTICIDE APPLICATION.

USE RESTRICTIONS: This product is only for use in manual subterranean applications to control valley pocket gophers (*Thomomys bottae*), northern pocket gophers (*T. talpoides*), Mazama pocket gophers (*T. mazama*), Townsend's pocket gophers (*T. townsendi*), giant pocket gophers (*T. bulbivorus*), Sierra pocket gophers (*T. monticola*) and plains pocket gophers (*Geomys bursarius*).

This product is to be used around homes.

Do not apply this product above the ground surface. Do not apply this product by use of a mechanical burrow builder machine or any other type of mechanical application equipment, including mechanized probes. **Do not broadcast bait.**

BAITING: Place baits in main runways. To locate a main runway, probe 12 inches to 18 inches from the surface mound on the side which is flattened or depressed, using a burrow probe or a smooth metal rod. When resistance on probe suddenly decreases, probe is in the main runway. Open the runway with the probe, a spade or a shovel. Place one ANSWER® BAIT BLOCK® into each opening of the runway and cover the opening securely to exclude light. Do not permit the loose soil to cover bait.

Place baits at two or three locations in each main burrow (runway) system. A pocket gopher will normally travel to all portions of its burrow system within a few days. As some gophers may die above ground, check the area periodically for 10 to 15 days after treatment. Bury or incinerate (if permitted locally) any dead animals found. If pocket gopher activity persists 2 weeks after treatment, bait active burrow a second time.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith. The efficacy of the product may be reduced under high moisture conditions.
